Strong Domain Knowledge	Extensive Background Checks

Workforce Solutions

Contract Sourcing

Skilled contract professionals provide extra support and infuse critical knowledge into your organization. By leveraging our extensive expertise, business leaders can focus on their core strategic initiatives.

- Manage project overflow, peak periods and special assignments
- Increase responsiveness to your external and internal customers
- Outsource the burden of recruiting, hiring and paying contingent workers
- Keep permanent staff focused on more challenging, interesting and substantive work
- Take advantage of flexible pricing options to save money
- Manage your department or unit more efficiently
- Reduce employee "burn-out" by supplementing your core staff with contract employees

Contract-to-Hire

Frequently, clients are so impressed with the skills set of our consultants that they aspire to employ the consultant on a full-time basis. 24X7SYSTEMS understands and appreciates the client's ability to identify top talent and their desire to retain them; therefore, 24X7SYSTEMS has implemented client-friendly terms for the conversion of contingent or temporary labor to permanent employees.

Permanent Placement Sourcing

24X7SYSTEMS' permanent placement solutions, provides you direct access to top-notch, fully-screened and ideally-qualified candidates in every industry and at every level. It's less time consuming, more cost effective and the most successful way to hire the right people for the job and for your company's culture. We have proven expertise to find and deliver talented individuals with the right skills and experience for your permanent positions – who share your vision and who can contribute to your success for the long term. 24X7SYSTEMS' full-service recruiting expertise and network of recruiting experts use consultative and client-specific strategies to find the right-fit talent for the company's culture and business demands.

Project-based Sourcing

When a client has a short hiring deadline, we're ready with an expansive database of qualified candidates and a quick turnaround plan. Whether you need an individual with a similar skill set or diverse capabilities, our high-performance recruiters have the processes, talent and experience to locate the best candidate and meet your hiring objectives on a tight timeframe.

Technical Skills Summary

Managing human capital at every level is integral to the health of every strategic engagement. Consultant management is therefore a top priority at 24X7SYSTEMS, as the company strives to forge strong ties with its consultants. 24X7SYSTEMS has created an industry-unique consultant relationship management system with resource support, communications, and retention administration. 24X7SYSTEMS' outreach program is driven by consultant relationship managers.
